

EVER WANTED TO SAIL A CLASSIC BOAT? NOW YOU CAN!

Conway One Design yachts (lovingly called 'CODs') have been sailed by Conway Yacht Club members for nearly 100 years.

These boats are sturdy wooden craft, designed for sailing in local waters and built locally. They have a fair turn of speed and have proved to be very seaworthy. However, owning a classic keelboat can be a labour of love: launching, lift out, berthing and insurance etc all have to be organised and paid for, not to mention the annual maintenance.

Now we can offer you the chance of enjoying these beautiful and historic boats without all the hard work and hassle! Currently we have three CODs fully equipped and available to sail from the end of May. Please see below for further details and contact us if you are interested.

SAILING & HIRING A CONWAY ONE DESIGN

We do not ask for any formal sailing qualifications but experience is essential. We will consider the following:

- Amount of experience & any sailing qualifications you may have
- How recently you have been sailing
- Tide times & heights and forecast weather conditions

Your sailing skills and boat handling will initially be monitored and this will normally involve being accompanied by a COD owner or regular COD sailor. Sailing will only be arranged when there is safety cover available, usually weekends. When you are fully familiarised with the boat, arrangements can be made for more regular or long-term hire, to include racing, subject to insurance.
